Professional Summary

Software Engineer with hands-on experience building scalable web and Android applications using React, Next.js, Node.js, Express.js, Java, PostgreSQL, MongoDB, Firebase. Strong foundation in REST APIs, object-oriented programming, data structures and algorithms, database management. Passionate about designing efficient, high-performance software solutions and solving real-world engineering challenges.

Education

KLS Vishwanathrao Deshpande Institute of Technology, Haliyal 2026
Bachelor of Engineering in Computer Science *Haliyal, Karnataka*

- **Relevant Coursework:** Data Structures and Algorithms (Java), Full Stack Web Development

Experience

Mind Matrix Feb 2026 – May 2026
Android App Development using GenAI

- Built Android apps using Kotlin, Jetpack Compose, and Firebase with industry-standard architecture.
- Integrated Generative AI features using Google AI Studio and cloud-based tools.
- Designed UI/UX prototypes, implemented features, and performed debugging & testing.
- Developed an offline-first project (Kreeda-Ankana) using MVVM, Room DB, and Firestore.

Projects

Aurix Store E-Commerce Platform | *Next.js, React.js, Tailwind CSS, Supabase (PostgreSQL), Razorpay* GitHub — Live

- Developed a modern e-commerce platform with a user-facing storefront and a comprehensive admin dashboard.
- Integrated Supabase for database management (PostgreSQL) and authentication, alongside Razorpay for secure, real-time payment processing.
- Optimized application performance and responsive UI.

Decentralized Application for Food Supply Chain Management | *React.js,Tailwind CSS, Ganache, Metamask, Blockchain*

- Developed a secure blockchain-based supply chain tracking system ensuring transparency and traceability.
- Integrated TensorFlow-based anomaly detection for identifying irregularities in the supply chain.
- Enhanced operational reliability and reduced fraud risks using decentralized data verification.

YourScheme – Government Schemes Awareness Platform | *HTML, CSS, JavaScript, React.js, Express.js, Bootstrap*

- Developed a platform covering 1,270+ government schemes, benefiting thousands of users.
- Implemented search and filtering functionalities to improve accessibility and information discovery.
- Integrated Firebase backend for real-time updates and dynamic content delivery.

Technical Skills

Languages: Python, C, C++, Java, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, PostgreSQL

Design & Tools: Figma, UI/UX Design, Git, GitHub, VS Code, Linux

Achievements & Certifications

Achievements: College Hackathon – Mental Health Support Platform; improved platform usability by 20%.
Certifications: Python Essentials 2 (Cisco), Microsoft Azure AI Fundamentals, TCS iON Young Professional, Full Stack Web Development.
